

## Correction to

“Martin’s Maximum, saturated ideals, and  
non-regular ultrafilters. Part I”

By M. FOREMAN, M. MAGIDOR AND S. SHELAH

127 (1988), 1–47

On page 21, line three from the bottom, the reference [Sh 3] should be replaced by Todorcevic [T], as Todorcevic has kindly informed us that his paper, “Reflecting stationary sets” was circulated in October of 1984, but still awaits publication.

The lines three and two from the bottom of page 21 should have a comma and a “then” inserted after “reflects.”
