

LIST OF PUBLICATIONS

SAHARON SHELAH

BOOKS

1. Sh:a Saharon Shelah. *Classification theory and the number of nonisomorphic models*, volume 92 of *Studies in Logic and the Foundations of Mathematics*. North-Holland Publishing Co., Amsterdam-New York, 1978.
2. Sh:b Saharon Shelah. *Proper forcing*, volume 940 of *Lecture Notes in Mathematics*. Springer-Verlag, Berlin-New York, 1982.
3. Sh:d Saharon Shelah. *Around classification theory of models*, volume 1182 of *Lecture Notes in Mathematics*. Springer-Verlag, Berlin, 1986.
4. Sh:c Saharon Shelah. *Classification theory and the number of nonisomorphic models*, volume 92 of *Studies in Logic and the Foundations of Mathematics*. North-Holland Publishing Co., Amsterdam, second edition, 1990.
5. Sh:g Saharon Shelah. *Cardinal arithmetic*, volume 29 of *Oxford Logic Guides*. The Clarendon Press, Oxford University Press, New York, 1994.
6. Sh:f Saharon Shelah. *Proper and improper forcing*. Perspectives in Mathematical Logic. Springer-Verlag, Berlin, second edition, 1998.
7. Sh:h Saharon Shelah. *Classification theory for abstract elementary classes*, volume 18 of *Studies in Logic (London)*. College Publications, London, 2009.
8. Sh:i Saharon Shelah. *Classification theory for abstract elementary classes. Vol. 2*, volume 20 of *Studies in Logic (London)*. College Publications, London, 2009.
9. Sh:e Saharon Shelah. *Non-structure theory*. Oxford University Press, to appear.

PUBLISHED PEER REVIEWED RESEARCH ARTICLES

1. Sh:1 Saharon Shelah. Stable theories. *Israel J. Math.*, 7:187–202, 1969.
2. Sh:2 Saharon Shelah. Note on a min-max problem of Leo Moser. *J. Combinatorial Theory*, 6:298–300, 1969.
3. Sh:4 Saharon Shelah. On theories T categorical in $|T|$. *J. Symbolic Logic*, 35:73–82, 1970.
4. Sh:5 Saharon Shelah. On languages with non-homogeneous strings of quantifiers. *Israel J. Math.*, 8:75–79, 1970.
5. Sh:6 Saharon Shelah. A note on Hanf numbers. *Pacific J. Math.*, 34:541–545, 1970.
6. Sh:7 Saharon Shelah. On the cardinality of ultraproduct of finite sets. *J. Symbolic Logic*, 35:83–84, 1970.
7. Sh:3 Saharon Shelah. Finite diagrams stable in power. *Ann. Math. Logic*, 2(1):69–118, 1970/1971.
8. Sh:9 Saharon Shelah. Remark to “local definability theory” of Reyes. *Ann. Math. Logic*, 2(4):441–447, 1970/1971.
9. Sh:8 Saharon Shelah. Two cardinal compactness. *Israel J. Math.*, 9:193–198, 1971.
10. Sh:10 Saharon Shelah. Stability, the f.c.p., and superstability; model theoretic properties of formulas in first order theory. *Ann. Math. Logic*, 3(3):271–362, 1971.
11. Sh:11 Saharon Shelah. On the number of non-almost isomorphic models of T in a power. *Pacific J. Math.*, 36:811–818, 1971.
12. Sh:12 Saharon Shelah. The number of non-isomorphic models of an unstable first-order theory. *Israel J. Math.*, 9:473–487, 1971.
13. Sh:13 Saharon Shelah. Every two elementarily equivalent models have isomorphic ultrapowers. *Israel J. Math.*, 10:224–233, 1971.
14. Sh:14 Saharon Shelah. Saturation of ultrapowers and Keisler’s order. *Ann. Math. Logic*, 4:75–114, 1972.
15. Sh:15 Saharon Shelah. Uniqueness and characterization of prime models over sets for totally transcendental first-order theories. *J. Symbolic Logic*, 37:107–113, 1972.
16. Sh:16 Saharon Shelah. A combinatorial problem; stability and order for models and theories in infinitary languages. *Pacific J. Math.*, 41:247–261, 1972.
17. Sh:17 Saharon Shelah. For what filters is every reduced product saturated? *Israel J. Math.*, 12:23–31, 1972.
18. Sh:18 Saharon Shelah. On models with power-like orderings. *J. Symbolic Logic*, 37:247–267, 1972.
19. Sh:19 Paul Erdős and Saharon Shelah. Separability properties of almost-disjoint families of sets. *Israel J. Math.*, 12:207–214, 1972.

20. Sh:20 James Henry Schmerl and Saharon Shelah. On power-like models for hyperinaccessible cardinals. *J. Symbolic Logic*, 37:531–537, 1972.
21. Sh:21 Paul Erdős and Saharon Shelah. On problems of Moser and Hanson. In *Graph theory and applications (Proc. Conf., Western Michigan Univ., Kalamazoo, Mich., 1972; dedicated to the memory of J. W. T. Youngs)*, volume 303 of *Lecture Notes in Math.*, pages 75–79. Springer, Berlin, 1972.
22. Sh:22 Saharon Shelah. A note on model complete models and generic models. *Proc. Amer. Math. Soc.*, 34:509–514, 1972.
23. Sh:23 Fred Galvin and Saharon Shelah. Some counterexamples in the partition calculus. *J. Combinatorial Theory Ser. A*, 15:167–174, 1973.
24. Sh:24 Saharon Shelah. First order theory of permutation groups. *Israel J. Math.*, 14:149–162; errata, *ibid.* 15 (1973), 437–441, 1973.
25. Sh:26 Saharon Shelah. Notes on combinatorial set theory. *Israel J. Math.*, 14:262–277, 1973.
26. Sh:27 Gadi Moran and Saharon Shelah. Size direction games over the real line. III. *Israel J. Math.*, 14:442–449, 1973.
27. Sh:28 Saharon Shelah. There are just four second-order quantifiers. *Israel J. Math.*, 15:282–300, 1973.
28. Sh:34 Saharon Shelah. Weak definability in infinitary languages. *J. Symbolic Logic*, 38:399–404, 1973.
29. Sh:39 Saharon Shelah. Differentially closed fields. *Israel J. Math.*, 16:314–328, 1973.
30. Sh:29 Saharon Shelah. A substitute for Hall’s theorem for families with infinite sets. *J. Combinatorial Theory Ser. A*, 16:199–208, 1974.
31. Sh:30 Ralph N. McKenzie and Saharon Shelah. The cardinals of simple models for universal theories. In *Proceedings of the Tarski Symposium*, volume XXV of *Proc. Sympos. Pure Math.*, pages 53–74. Amer. Math. Soc., Providence, R.I., 1974.
32. Sh:31 Saharon Shelah. Categoricity of uncountable theories. In *Proceedings of the Tarski Symposium*, volume XXV of *Proc. Sympos. Pure Math.*, pages 187–203. Amer. Math. Soc., Providence, R.I., 1974.
33. Sh:32 Paul Erdős, András Hajnal, and Saharon Shelah. On some general properties of chromatic numbers. In *Topics in topology (Proc. Colloq., Keszthely, 1972)*, volume 8 of *Colloq. Math. Soc. János Bolyai*, pages 243–255. North-Holland, Amsterdam, 1974.
34. Sh:33 Saharon Shelah. The Hanf number of omitting complete types. *Pacific J. Math.*, 50:163–168, 1974.
35. Sh:35 Eric Charles Milner and Saharon Shelah. Sufficiency conditions for the existence of transversals. *Canadian J. Math.*, 26:948–961, 1974.
36. Sh:44 Saharon Shelah. Infinite abelian groups, Whitehead problem and some constructions. *Israel J. Math.*, 18:243–256, 1974.
37. Sh:37 Saharon Shelah. A two-cardinal theorem. *Proc. Amer. Math. Soc.*, 48:207–213, 1975.
38. Sh:38 Saharon Shelah. Graphs with prescribed asymmetry and minimal number of edges. In *Infinite and finite sets (Colloq., Keszthely, 1973; dedicated to P. Erdős on his 60th birthday)*, Vol. III, volume 10 of *Colloq. Math. Soc. János Bolyai*, pages 1241–1256. North-Holland, Amsterdam, 1975.
39. Sh:40 Saharon Shelah. Notes on partition calculus. In *Infinite and finite sets (Colloq., Keszthely, 1973; dedicated to P. Erdős on his 60th birthday)*, Vol. III, volume 10 of *Colloq. Math. Soc. János Bolyai*, pages 1257–1276. North-Holland, Amsterdam, 1975.
40. Sh:41 Eric Charles Milner and Saharon Shelah. Some theorems on transversals. In *Infinite and finite sets (Colloq., Keszthely, 1973; dedicated to P. Erdős on his 60th birthday)*, Vol III, volume 10 of *Colloq. Math. Soc. János Bolyai*, pages 1115–1126. North Holland, Amsterdam, 1975.
41. Sh:42 Saharon Shelah. The monadic theory of order. *Ann. of Math. (2)*, 102(3):379–419, 1975.
42. Sh:43 Saharon Shelah. Generalized quantifiers and compact logic. *Trans. Amer. Math. Soc.*, 204:342–364, 1975.
43. Sh:45 Saharon Shelah. Existence of rigid-like families of abelian p -groups. In *Model theory and algebra (A memorial tribute to Abraham Robinson)*, volume 498 of *Lecture Notes in Math.*, pages 384–402. Springer, Berlin, 1975.
44. Sh:46 Saharon Shelah. Colouring without triangles and partition relation. *Israel J. Math.*, 20:1–12, 1975.
45. Sh:48 Saharon Shelah. Categoricity in \aleph_1 of sentences in $L_{\omega_1, \omega}(Q)$. *Israel J. Math.*, 20(2):127–148, 1975.
46. Sh:51 Saharon Shelah. Why there are many nonisomorphic models for unsuperstable theories. In *Proceedings of the International Congress of Mathematicians (Vancouver, B. C., 1974)*, volume 1, pages 259–263. Canad. Math. Congress, Montreal, Que., 1975.
47. Sh:52 Saharon Shelah. A compactness theorem for singular cardinals, free algebras, Whitehead problem and transversals. *Israel J. Math.*, 21(4):319–349, 1975.
48. Sh:54 Saharon Shelah. The lazy model-theoretician’s guide to stability. *Logique et Analyse (N.S.)*, 18(71-72):241–308, 1975.
49. Sh:47 Johann Andreas Makowsky, Saharon Shelah, and Jonathan Stavi. Δ -logics and generalized quantifiers. *Ann. Math. Logic*, 10(2):155–192, 1976.
50. Sh:49 Saharon Shelah. A two-cardinal theorem and a combinatorial theorem. *Proc. Amer. Math. Soc.*, 62(1):134–136 (1977), 1976.

51. Sh:50 Saharon Shelah. Decomposing uncountable squares to countably many chains. *J. Combinatorial Theory Ser. A*, 21(1):110–114, 1976.
52. Sh:55 Angus J. Macintyre and Saharon Shelah. Uncountable universal locally finite groups. *J. Algebra*, 43(1):168–175, 1976.
53. Sh:56 Saharon Shelah. Refuting Ehrenfeucht conjecture on rigid models. *Israel J. Math.*, 25(3-4):273–286, 1976.
54. Sh:57 R. Amit and Saharon Shelah. The complete finitely axiomatized theories of order are dense. *Israel J. Math.*, 23(3-4):200–208, 1976.
55. Sh:61 Saharon Shelah. Interpreting set theory in the endomorphism semi-group of a free algebra or in a category. *Ann. Sci. Univ. Clermont*, (60 Math. No. 13):1–29, 1976.
56. Sh:36 Saharon Shelah. Remarks on cardinal invariants in topology. *General Topology and Appl.*, 7(3):251–259, 1977.
57. Sh:53 Ami Litman and Saharon Shelah. Models with few isomorphic expansions. *Israel J. Math.*, 28(4):331–338, 1977.
58. Sh:58 Saharon Shelah. Decidability of a portion of the predicate calculus. *Israel J. Math.*, 28(1-2):32–44, 1977.
59. Sh:59 Howard Lyn Hiller and Saharon Shelah. Singular cohomology in L . *Israel J. Math.*, 26(3-4):313–319, 1977.
60. Sh:60 Wilfrid Hodges, Alistair H. Lachlan, and Saharon Shelah. Possible orderings of an indiscernible sequence. *Bull. London Math. Soc.*, 9(2):212–215, 1977.
61. Sh:64 Saharon Shelah. Whitehead groups may be not free, even assuming CH. I. *Israel J. Math.*, 28(3):193–204, 1977.
62. Sh:77 Saharon Shelah. Existentially-closed groups in \aleph_1 with special properties. *Bull. Soc. Math. Grèce (N.S.)*, 18(1):17–27, 1977.
63. Sh:90 Saharon Shelah. Remarks on λ -collectionwise Hausdorff spaces. *Topology Proc.*, 2(2):583–592 (1978), 1977.
64. Sh:63 Saharon Shelah and Jacques Stern. The Hanf number of the first order theory of Banach spaces. *Trans. Amer. Math. Soc.*, 244:147–171, 1978.
65. Sh:65 Keith J. Devlin and Saharon Shelah. A weak version of \diamond which follows from $2^{\aleph_0} < 2^{\aleph_1}$. *Israel J. Math.*, 29(2-3):239–247, 1978.
66. Sh:66 Saharon Shelah. End extensions and numbers of countable models. *J. Symbolic Logic*, 43(3):550–562, 1978.
67. Sh:67 Saharon Shelah. On the number of minimal models. *J. Symbolic Logic*, 43(3):475–480, 1978.
68. Sh:68 Saharon Shelah. Jonsson algebras in successor cardinals. *Israel J. Math.*, 30(1-2):57–64, 1978.
69. Sh:72 Saharon Shelah. Models with second-order properties. I. Boolean algebras with no definable automorphisms. *Ann. Math. Logic*, 14(1):57–72, 1978.
70. Sh:73 Saharon Shelah. Models with second-order properties. II. Trees with no undefined branches. *Ann. Math. Logic*, 14(1):73–87, 1978.
71. Sh:74 Saharon Shelah. Appendix to: “Models with second-order properties. II. Trees with no undefined branches” (Ann. Math. Logic 14 (1978), no. 1, 73–87). *Ann. Math. Logic*, 14:223–226, 1978.
72. Sh:75 Saharon Shelah. A Banach space with few operators. *Israel J. Math.*, 30(1-2):181–191, 1978.
73. Sh:80 Saharon Shelah. A weak generalization of MA to higher cardinals. *Israel J. Math.*, 30(4):297–306, 1978.
74. Sh:81 Uri Abraham, Keith J. Devlin, and Saharon Shelah. The consistency with CH of some consequences of Martin’s axiom plus $2^{\aleph_0} > \aleph_1$. *Israel J. Math.*, 31(1):19–33, 1978.
75. Sh:91 Howard Lyn Hiller, Martin K. Huber, and Saharon Shelah. The structure of $\text{Ext}(A, \mathbf{Z})$ and $V = L$. *Math. Z.*, 162(1):39–50, 1978.
76. Sh:97 Mary Ellen Rudin and Saharon Shelah. Unordered types of ultrafilters. *Topology Proc.*, 3(1):199–204 (1979), 1978.
77. Sh:62 Johann Andreas Makowsky and Saharon Shelah. The theorems of Beth and Craig in abstract model theory. I. The abstract setting. *Trans. Amer. Math. Soc.*, 256:215–239, 1979.
78. Sh:70 Yuri Gurevich and Saharon Shelah. Modest theory of short chains. II. *J. Symbolic Logic*, 44(4):491–502, 1979.
79. Sh:78 Saharon Shelah. Hanf number of omitting type for simple first-order theories. *J. Symbolic Logic*, 44(3):319–324, 1979.
80. Sh:79 Saharon Shelah. On uniqueness of prime models. *J. Symbolic Logic*, 44(2):215–220, 1979.
81. Sh:85 Keith J. Devlin and Saharon Shelah. A note on the normal Moore space conjecture. *Canadian J. Math.*, 31(2):241–251, 1979.
82. Sh:86 Keith J. Devlin and Saharon Shelah. Souslin properties and tree topologies. *Proc. London Math. Soc.* (3), 39(2):237–252, 1979.

83. Sh:89 Saharon Shelah. Boolean algebras with few endomorphisms. *Proc. Amer. Math. Soc.*, 74(1):135–142, 1979.
84. Sh:94 Saharon Shelah. Weakly compact cardinals: a combinatorial proof. *J. Symbolic Logic*, 44(4):559–562, 1979.
85. Sh:96 Saharon Shelah and Martin Ziegler. Algebraically closed groups of large cardinality. *J. Symbolic Logic*, 44(4):522–532, 1979.
86. Sh:103 David H. Fremlin and Saharon Shelah. On partitions of the real line. *Israel J. Math.*, 32(4):299–304, 1979.
87. Sh:105 Saharon Shelah. On uncountable abelian groups. *Israel J. Math.*, 32(4):311–330, 1979.
88. Sh:108 Saharon Shelah. On successors of singular cardinals. In *Logic Colloquium '78 (Mons, 1978)*, volume 97 of *Stud. Logic Foundations Math.*, pages 357–380. North-Holland, Amsterdam-New York, 1979.
89. Sh:69 Saharon Shelah. On a problem of Kurosh, Jónsson groups, and applications. In *Word problems, II (Conf. on Decision Problems in Algebra, Oxford, 1976)*, volume 95 of *Stud. Logic Foundations Math.*, pages 373–394. North-Holland, Amsterdam-New York, 1980.
